Logo guidelines

Please preserve the logo proportions and colors, using the version suited to your background.

Please place the credit beside the result or in the same data panel, including exports and partner displays.

Please leave clear space of at least one quarter of the logo height. Our web example uses a 116px-wide logo and 14px text.

You're welcome to use these official assets to credit authorized uses of Overpass data. Please preserve the logo's proportions, design, and supplied colors, and present the credit as identifying the data source without suggesting that Overpass endorses your business or product.

Logo files: transparent PNG and lossless WebP, 636 x 137 pixels. This guide contains raster artwork, not vector masters.
